Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage by stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Visits website/app • Enters personal & financial details • Uploads required documents	• System validates data • ML model analyzes applicant data • Credit score and other features are checked	• Receives approval/rejection result • Views eligibility/reason • Accepts or reapplies later
Touchpoint <i>What part of the service do they interact with?</i>	• Website/mobile App • Registration Page • Application Form	• ML Prediction System • Credit Database • Verification Service	• Result Dashboard • Result Page Notification • Customer Support

Customer Thought <i>What is the customer thinking?</i>	• Will my application be accepted? • Is my data secure?	• How long will approval take? • Am I eligible?	• Why was I approved/rejected? • What should I do next?
Customer Feeling <i>What is the customer feeling?</i>	Curious, Hopeful	Anxious, Waiting	Happy & Confident
Process Ownership Who is in the lead on this?	Customer	ML System + Bank Verification Team	Bank Approval System + Customer Support
Opportunities <i>How can we improve this stage?</i>	• Simple application form • Clear eligibility criteria • Document upload guide	• Faster ML prediction • Real-time status tracking • Accurate verification	• Instant notifications • Transparent rejection reasons • Suggestions to improve eligibility
